Digital Asset Report

Tether USDt

Symbol: USDt

Report date: 2026-10-08 03:58 UTC

Tether is a technology company that issues stablecoins, primarily USDT, which is pegged to the US dollar. Its stablecoins aim to provide a digital alternative to fiat currencies and facilitate faster, cheaper, and more secure transactions on various blockchain networks. The company also engages in other blockchain-related ventures like Bitcoin mining, education, and payment solutions.

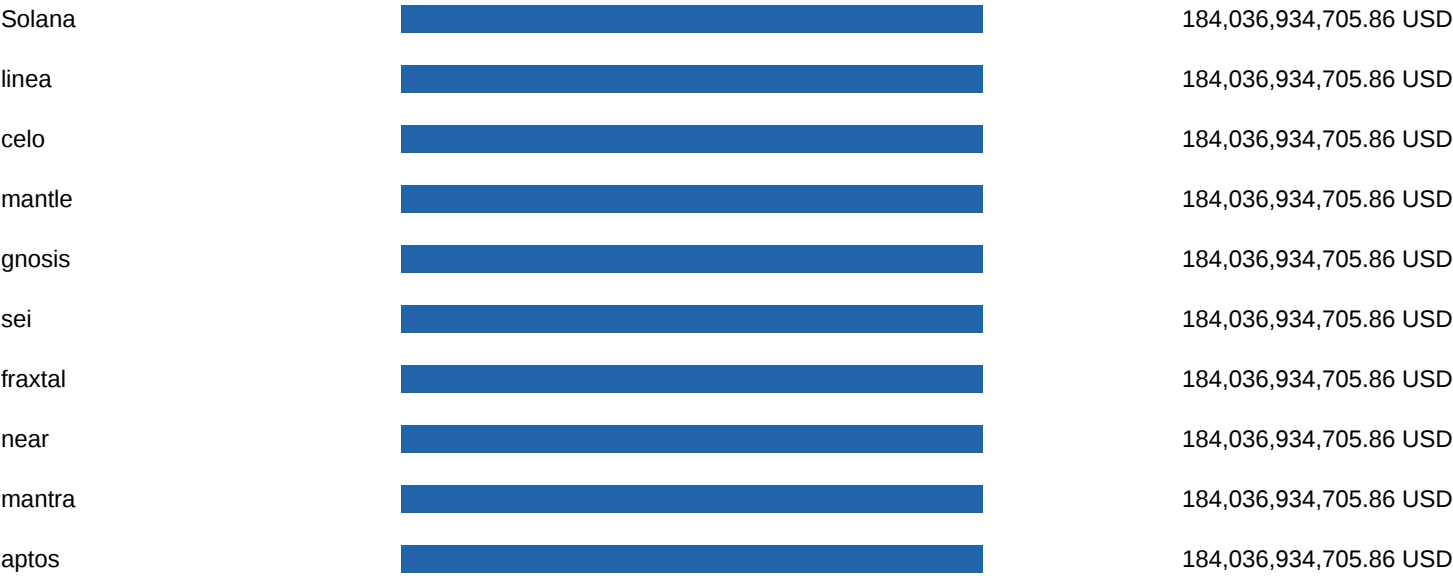

Asset brief

Tether is a technology company that issues stablecoins, primarily USDT, which is pegged to the US dollar. Its stablecoins aim to provide a digital alternative to fiat currencies and facilitate faster, cheaper, and more secure transactions on various blockchain networks.
